

## Month-End Close Checklist ? Finance Ops

1. Export open invoice list from SAP to Excel
2. Reconcile vendor balances manually in spreadsheet
3. Chase department manager approvals via email (2-3 day delay typical)
4. Re-enter approved invoice rows into SAP by hand
5. Run month-end accrual report (SAP reporting too rigid ? workaround in Excel)

Tools: SAP, Excel, Outlook

Pain points: manual re-entry, approval bottlenecks, no PO auto-match
